

# Functional Whitepaper

## Whitepaper

See functional whitepaper: <https://drive.google.com/file/d/1kIXadaZF7P7e01PQT8NbQF1D3Vk2BqTB/view?usp=sharing>

## Summary Mirai Labs ecosystem

Mirai Labs = Web3 Green Accelerator | savethefuture.finance = Green suite of web3 products --> Nala (Launchpad & Marketplace), Gama (Gamerfied Fund / Dex), Eko (Tokens' Protocol), Webi (Loyalty Program)

Purpose: Paving the way to Web3 Sustainable Ecommerce, Finance & Lifestyle

Mission: Accelerate the creation of a web3-powered sustainable future

Goal: Accelerate the adoption of sustainable products and behaviours with the help of NFTs, GameFi, DeFi and Web3 UX.

Vision: The green cool Ecosystem. Web3-scale green foundation for all future generations of sustainable investors, consumers, brands & entrepreneurs.

## WEBI

WEBI (Mirai Light) is a BSC/Polygon token, fueled by Mirai Labs, that powers Webi, the first WEB3 environment-friendly loyalty program app that allows users to "engage-to-earn".

Webi users with NFT memberships can mine WEBI tokens and plant trees, by engaging with any whitelisted green Web3 platform (metaverse, game, blockchain).

WEBI can be burned to redeem limited partners' NFTs on the NALA store, mint NALA (the DAO token of Mirai Labs), or upgrade NFT hash powers to mine more frequently.

Part of the WEBI supply will be pre-mined and secured in a distribution contract. However, for every transaction occurring on the Mirai Labs ecosystem, MIRAI (the genesis token) will be bought back and burned to mint more WEBI.

## Summary tokens

MIRAI (Mirai) = GameFi & Fund token (see tokenomics MIRAI) --> Web3 green capitalist & philanthropist

NALA (Mirai DAO) = Governance / Citinzeship token (see tokenomics NALA) --> Web3 green citizen

WEBI (Mirai Light) = Loyalty Reward / Ecommerce token --> Web3 green friend

## Current Roadmap Q2-Q3-Q4

Nala launch with Vulcan Forged - Q2

Nala land launch (NFTs) - Q2

Complete rebranding and UX improvements - Q2

Webi launch - Q3

Integrations of two blockchains: Elysium by Vulcan Forged & Digital Bits (by Digital Bits) - Q3

Dex completion - Q3

Marketplace completion - Q4

Initiate scouting with Elrond - Q4

Mirai Labs incubation grant program - Q4

# Token Distribution

How the tokens will be distributed among stakeholders

## Distribution

Stakeholders	WEBI	Start Atlas	ilychain Monste	Gala Games
Team & Advisors	0,0%	Linear	15,00%	18,50%
Emissions Loyalty mining (pre-minted and from Mirai Bu	66,0%	Linear unlock vs. no vesting (depends of the type of emission)	60,00%	47,00%
Strategic partners	2,0%	Linear unlock in 1 year	5,00%	15,00%
ILO	5,0%	Linear unlock: 15% immediately after the exchange launch and then 17.2% for 5 months	10,00%	0,00%
Ambassadors	1,0%		0,00%	5,00%
Floating liquidity for exchanges	3,0%		5,00%	0,00%
Reserve/Foundation (MM & Trade / Leaderboard rewar	23,0%	Log unlock in 2 years	5,00%	18,00%
	100,0%	100,0%	100,0%	21,40%

New supply minting after 6 years / year 4,67% Due to the aggressive burning we expect WEBI to still be net deflationary

## Token Supply

Token Total Supply	3.000.000.000
Team & Advisors + Accredited	60.000.000
Influencers	30.000.000
ILO	150.000.000
Community + Reserve	2.670.000.000

## Vesting Parameters

		Natura Log Function
Alpha Value - Team, Adv, SAFT	82.191,78	Linear
Alpha Value - Reserves	404.972.237,9	6,593044534

## Team & Advisors

Team	5,00%
Advisors	2,00%
External Advisors (from reserve)	1,00%
	8,00%

WFR3 ECO BASIC INCOME (WFR1)

Summary

See functional whitepaper: <https://drive.google.com/file/d/1kXkdaZ7P7e01POT8N0QF1D3Vt28oT8/view?usp=sharing>

1. Own your time-based NFT (loyalty membership) in your wallet to unlock power (energy) and receive multiple perks.
2. Download & activate the WEBI chrome extension (software) that tracks anonymously your Web3 active engagement. Your private identity remains intact.
3. Mine WEBI tokens (rewards) and plant trees by engaging with any Web3 green-friendly whitelisted platform. For every 15 seconds spent actively on the platform, you consume a fraction of power, earn 1 token and re-green the planet.
4. Burn WEBI tokens to redeem NFTs, mint NALA tokens that you can stake or upgrade your NFT hashrate so that you can mine more tokens. You can trade WEBI for BUSD accordingly to the liquidity pool.
5. Wait for your power to be replenished, buy more NFTs or upgrade your NFT skill to get your power refilled faster.

USER	NFTs owned by wallet	NFTs rarity	Power assigned based on: Power based on rarity		Total consumable power (=Energy Mining time (=seconds val. Earnable tokens WEBI per Trees planted + Total earnable tokens by the					
CASUAL (MIN)	1	COMMON	1	0	1	10	40	0,5	240.000

option to lock your WEB1 rewards (as LKWB1) for 26 weeks and get a multiplier on the APR. The first 17% are unlocked after 26 weeks, 8,5% unlocked every 2 weeks after that except for the last 8 weeks when 8% will be unlocked.

when you upgrade your current NFT is burned  
Every 15 seconds you consume power, derived from your hashrate  
Once the power is finished, you need to wait for it to be replenished or you can upgrade your skill (efficiency) to improve  
From level 20 you can decide to earn between WEB1 (reward token) or NALA (governance token)

## Power Replenishment

How the power will be replenished among the NFTs holders

	Skills (=Efficiency value)				Power replenishment time (= Replenishment rate value in hours)				Upgrade skill cost in tokens WEBI (= Upgrade value) - season 1

Your power is needed in order to keep mining.

Your power is fully replenished every x hours where x depends on your skill level

Skills can be upgraded by winning games or by using your tokens

From level 20 you can upgrade by referring users

1 User = 3 levels

# Minting & Burning

## Minting

\$WEBI MINTING (part of the \$WEBI supply will already be pre-minted)				
Gama revenues/fees - dex + gamefi				
Nala revenues - marketplace + launchpad	---->	buy back and burn \$MIRAI	---->	Mint \$WEBI (M ----> Distribution to Pro&Hardcore WEBI users (NFTs holders/power consumers)
Eko protocol fees - trading				
Mirai Labs revenues - accelerator				

## Burning

WEBI BURNING				
----> redeem limited NFTs from the Space Store of Nala (third parties collections, etc.)				
WEBI	---->	burn \$WEBI	---->	upgrade hashrates / skills to earn more or faster
Staking = APR + launchpad whitelists				
----> Mint \$LKNALA ( ----> Dropshipping access				
LP (LKNALA - MIRAI) farming = earn phygital NFTs (instead of tokens)				
Voting				

## Airdrops Distribution

How the airdrops will be distributed among the NFT investors and token holders

**Airdrops Tokenomics for first one-month NALA token holders and new NFT holders**  
tokens 69.000.000,000 12 weeks

### PROCESS

#### WEBI / LKWEBI token Airdrops for first one-month token holders and new NFT holders for 12 weeks - post public launch

First-month new NFT holders (investors) or token holders can obtain a multiplier on the WEBI airdrops if they choose to receive locked WEBI Tokens rewards. When doing so, they will obtain LKWEBI token airdrops.

#### Utility

LKWEBI tokens always have the same value as WEBI, but more utility can be create in the future. Examples of future platform and defi utilities are:

- Staking LKWEBI in the WEBI Staking Farm for rewards (The deposited LKWEBI are locked in a special smart contract that deposits the equivalent amount of unlocked WEBI on the user's behalf. The unlocked WEBI comes from a dedicated WEBI Liquidity Res
- LKWEBI tokens could allow the owner to obtain free shares of new NFTs from different games, funded by the extra treasury gains.

#### Emissions

Each 2 weeks a new Locked WEBI (LKWEBI) is created that will start to be unlocked after 26 weeks - the first 17% are unlocked after 26 weeks, 8.5% unlocked every 2 weeks after that except for the last 8 weeks when 8% will be unlocked.

This means there are multiple Locked WEBI tokens, each with different unlock schedules. There can be Locked WEBI #10 which unlocks in October 2022, and Locked WEBI 11 which unlocks in November 2022. Locked WEBI #10 and Locked WEBI #11 will alw:

To keep things simple, these tokens are periodically merged, without affecting the unlock schedule or amounts.

#### WEBI NFT holders (investors) and WEBI token holders - post WEBI token launch

- option to lock your WEBI rewards (as LKWEBI) for 26 weeks and get a multiplier on the APR. The first 17% are unlocked after 26 weeks, 8.5% unlocked every 2 weeks after that except for the last 8 weeks when 8% will be unlocked.
- option to receive LKNALA dao tokens (as LKNALA) for 13 weeks and get a multiplier on the APR. The first 17% are unlocked after 13 weeks, 8.5% unlocked every 1 week after that for the last 4 weeks when 8% will be unlocked

#### Benefits of the LKWEBI - WEBI model

- \* protect WEBI price
- \* reward more platform investors before the token launch
- \* more incentives (weekly token distribution, APRs-driven liquidity generation, locking gamification)
- \* more utilities (new platform utilities)

## Leaderboard Distribution

How the rewards will be distributed among the most skilled users

NFTs levels	Skills (=Efficiency value)			
	C	R	E	S
1	1	5	10	20
2	1,6	6,8	12,3	22,7
3	2,3	8,7	14,7	25,3
4	2,9	10,5	17,0	28,0
5	3,5	12,3	19,3	30,7
6	4,2	14,2	21,7	33,3
7	4,8	16,0	24,0	36,0
8	5,4	17,8	26,3	38,7
9	6,1	19,7	28,7	41,3
10	6,7	21,5	31,0	44,0
11	7,3	23,3	33,3	46,7
12	8,0	25,2	35,7	49,3
13	8,6	27,0	38,0	52,0

25	16,2	49,0	66,0	84,0
26	16,8	50,8	68,3	86,7
27	17,5	52,7	70,7	89,3
28	18,1	54,5	73,0	92,0
29	18,7	56,3	75,3	94,7
30	19,4	58,2	77,7	97,3
31	20	60	80	100
Delta	0,633	1,833	2,333	2,667

### Skill-to-Earn

Leaderboard Reward Chests are a type of lootbox given to players at the end of the season. These lootboxes can be obtained through the skills earned by top loyalty miners or upgrading NFTs

The lootboxes contain NEBULA that allows to upgrade rare NFTs levels, DUST that allow to mint special nfts, Whitelists or NALA DAO tokens.

The rewards are fixed every season and a given proportionally initially to 500 users based on their skills earned

Total NALA supply	100.000.000
JYG per season (up to 12.000.000)	500.000
Initial number of slots	500

Total DUST supply	10.000
JYG per season (up to 12.000.000)	500
Initial number of slots	500

Total NEBULA supply	5.000
JYG per season (up to 12.000.000)	250
Initial number of slots	250

## Raffles rewards Distribution

How raffles rewards will be distributed among the users

Input	Output	Utility
Hashrate/NALA	Nebula	Upgrade 5 levels.

Probability	NEBULA Range
47%	2-10
32%	11-20
16%	21-50
4%	100-200
1%	500-999

### Process

#### 1. What is NEBULA and What it can be used for

NEBULA is a game item used to enhance the hash rate of the NFTs to mine more NEBULA can be traded.

Only NFTs with a rare quality or higher can be enhanced.

#### 2. How to get NEBULA

- Lootbox raffles (hashrates): After participating in the loyalty mining and being on the top 100 rank list, NEBULA will be issued as a reward after the end of the season (usually each season lasts for 3 weeks - 1 month).

- SPACE BOX raffles (tickets): Raffle requires a certain number of \$NALA in staking (10\$)

#### 3. Rules

1. SPACE BOX is a BEP-1155 standard NFT. Each week there will be 1 SPACE BOX Raffle.

2. Each time a SPACE BOX is opened, a certain amount of NEBULA can be obtained according to the probability, please view table below :
